

environmental and other benefits, the government wants FastTag to be implemented across the nation as quickly as possible.

Now, there are even FastTag Car park facilities in Hyderabad Airport thus making it easy for authorities to charge and track the vehicle movements in their premises. And in 2019, major oil companies (HPCL, BPCL, and IOC) have now signed a common MOU allowing the use of FastTag in petrol pumps.

As of now, FastTag can be used across toll plazas across all state and national highways. So, vehicles with FastTag can pass through the toll plaza without stopping for any cash payment.

How to get FastTag?

FastTag can now be bought from selected branch banks, certified tag issuers, point of sale counters, Paytm, Amazon, and online as well. Consumers need to submit documents related to their identification and vehicle.

You can buy FastTag from offline or online sources. Some organizations such as Amazon, Paytm payments bank, etc even get it delivered to your doorstep along with discounts and offers.

The list for FastTag document tags include:

- A Passport size photo
- Vehicle Registration Certificate (RC).
- KYC (Know Your Customer) details for the vehicle owner (Identify and Address proof)

Once the consumers buy FastTag, he or she needs to add the same details in the MY FASTTag mobile app to start using this technology for payments
