

How to use your DSLR as a webcam

Learn how to use your DSLR as a webcam and get crystal clear video quality

Webcams are a nifty solution for video conferencing. They allow you to connect with friends, family, or professionals. But, the demand for webcam has skyrocketed in recent months because humanity had no choice but to work from home, due to the pandemic. The way of life has changed, and so has how we work. Stepping out of home is discouraged and prohibited, in many cases, and work from home by making use of
