

you can get all the necessary information. We've looked at DevOps, UI, website development, AI modeling and more in this issue and we've even gotten some industry inputs to figure out what works and what doesn't. Hopefully, this FastTrack will help you become a better developer. And if you're just in school or in college, then this might help you chart your path better. Things change rapidly in this ecosystem and getting one step ahead of the next person is a huge plus.

As always, we're open to feedback about the FastTrack. Please reach out to us on editor@digit.in and let us know what you think and if you have any suggestions for future FastTracks, then we're all ears. 🍌
