

d. Icons

e. Background

Also, being connected will help you in knowing what is trending in the market now. The following pointers will help you stay connected with other designers.

2. Stay connected – Dribbble is a great way of connecting with fellow designers. You can upload your designs and also look at the design of others for information:

a. uimovement.com

b. ptrns.com

c. uisources.com

d. uigarage.net

e. UI.patterns

f. awwwards.com

g. onepagelove.com

h. bebance.net

Go through all the collections available on these sites to get inspiration for your design and upload something if you have one.

3. Stay updated- Keep reading all the latest design articles available to know what is trending. Why typography is more attractive and elegant or how top designers are flaunting their grids is more critical. You can also read blogs and some popular design websites regularly to keep yourself well informed. The following are some interesting platform suggestions:

a. Medium

b. Marvelapp

c. Webdesignernews

d. Uxdesign.cc

e. Sitepoint

f. Smashing magazine

g. Forbes

h. Uplabs

i. speckyboy.com

Keep yourself well informed

4. Give the details – You are expected to give even the minute details most stylishly and elegantly. Everything matters! Let the user be awed by the details you provide. But ensure to do it without cluttering the layout. We hope you know the importance of white space! Go back to point two if you want to know what others are doing.
