

the endpoint, i.e., <https://petstore.swagger.io> and from the options select 'New Resource.'

In the pop-up dialogue box, enter an URL such as <http://petstore.swagger.io/#/> and hit OK.

- Once you've created a new resource, you have to generate the test suite. Similar to the above step, click right-click on the endpoint and select 'Generate TestSuite.'

Click OK in the pop-up dialogue boxes that follow. You should end up with a screen like this:

- Now, you need to add
