

Write the HTML Declaration and Head Element

Here is the code segment to be written into the base.html file.

```

• {# HTML declaration #}
• <!DOCTYPE html>
• <html>
•     {# Head elements #}
•     <head>
•         <title>{% block title %}Home {% endblock title %} |
CRM </title>
•         {% block head_favicon %}
•             <link rel="icon" type="image/png"
•                 href="{{ STATIC_URL }}images/
favicon.ico">
•         {% endblock head_favicon %}
•         {% block head_meta %}
•             {% block head_meta_charset %}
•                 <meta http-equiv="Content-Type"
•                     content="text/html; charset=utf-8"
/>>
•             {% endblock head_meta_charset %}
•             {% block head_meta_contentlanguage %}
•                 <meta http-equiv="Content-Language"
value="en-US" />
•             {% endblock head_meta_contentlanguage %}
•             {% block head_meta_viewport %}
•                 <meta name="viewport"
•                     content="width=device-width, ini-
tial-scale=1.0">
•             {% endblock head_meta_viewport %}
•         {% endblock head_meta %}
•         {% block head_css %}
•             {% block head_css_site %}
•                 <link href="{{ STATIC_URL }}css/bootstrap.
min.css"
•                     rel="stylesheet" media="screen">
•                 <link href="{{ STATIC_URL }}css/app.css"
•                     rel="stylesheet" media="screen">
•             {% endblock head_css_site %}
•             {% block head_css_section %}{% endblock
head_css_section %}
•             {% block head_css_page %}{% endblock

```
