

All you need to do is open an email message, and select **Read Aloud** in the **Speech** group.

Marking messages as read when deleted

You do not want to have messages that are deleted marked as unread. Simply because it is not a good idea to have an unread email out there that you want deleted. The sender of the email may be using email tracking, and you do want to ensure that you remain in their good books. You now have the option to ensure that all messages that you delete are automatically marked as read, even when you have not opened them.

To ensure your unread messages are automatically marked read when you delete them, perform the following steps:

- Go to **File > Options > Mail > Mark Messages as read when deleted**

Reminder flashing

Missing meetings aren't an ideal situation. These are little things that create an impression. To that end, not only notifications for meetings, but if you also want to ensure that you have replied to important emails, and have followed up on tasks on time. Outlook enables you to set up reminders for calendar invites, emails, or tasks that you want to follow up on.

You can also set up and customise default reminders for new meetings that may be set up in the future, for an existing meeting, or switch off the reminder altogether if you want to immerse yourself deep in your work.

If you're away on a vacation and do not want the reminders popping up on your screen, you can simply turn off reminders for all meetings that may
