

inconsistencies if you make a comparison of the data reported against one another. With Teams, you can find out the inconsistencies in the report with ease. You will see different results, unfortunately. Anyway, reports are essential if you are collaborating on the team. Team Owners can find out who were active and inactive during a collaborating session.

Fully integrated with Office 365

If you are already using Office 365, you will be glad to know that Teams integrates seamlessly with it. The most common applications of Office 365 that are utilized in the workplace, such as Excel, Word, PowerPoint, Outlook, SharePoint, OneNote are integrated fully in Microsoft Teams.

The groups admin of Office 365 will experience several improvements with its rendition. You can swiftly and easily create teams within a group, bring back deleted groups, make use of sensitivity labels, and edit the group email alias. If your employees are fond of using Windows Explorer, then they are going to have a good time using Teams as it is optimized for the browser. Directly from the office suite applications, you will get an explorer view access to One Drive and SharePoint locations. It is one of the USPs that is convincing people to use Teams.

Conversation channels

It is now possible to devote chat channels on selected topics making it easier to have the provision of messaging on a topic and start resolving problems faster without any distraction. You can ensure less clutter with channels that are made distinct based on the topic. You can easily find what you are looking for, and there is no need to scroll down amidst irrelevant messages. It saves time and keeps frustration at bay.

Microsoft Teams possess a conversation tab that appears on the general channel. When you create additional channels, it will also show up. In this channel, all class members can contribute. You can use the @mention button for inviting people to a conversation on other channels. Since only people in the channel can view those chats. If you wish to view the file shared during the conversation, then you can go to the files tab and access it.

Reduced email

In comparison to a potentially delayed email reply, quick questions will be resolved over Teams chat. Thus, you have a less cluttered inbox at your prompt. One of the graceful features of Microsoft Teams is you can dispatch
