"Ashen" Indie game

streaming experience can be enriching, mostly when you play with a community. Games like Fortnite, PUBG and Minecraft have been trendy for a long time, and their streams always ensure viewership.

If you want to create a new trend, you may not go for what is already there in the market. You may want to look at other prospective trends. Various games have been developed, embracing the Virtual Reality environment, which has been estimated to be the best futuristic gaming. Immersive gaming
