

and only people whom you trust. In general, avoid designating anybody as a manager who is not directly involved in the running of the channel.

To add a Manager, you need to go to the Managers page in the Control Panel. Here, you must click on Add Manager, where you need to enter the nightbot User ID Code of the user you wish to add as the Manager. Then, click Submit. You can also remove Managers through this page by clicking the delete button in front of the manager you wish to remove.

Regulars

The regular option is a rather unique setting in Nightbot. Here, you can reward loyal supporters as Regulars, granting them some extra access to your Nightbot settings and also making them immune to the spam filter on the chatbot. Channels generally have very few Regulars, since having a lot of Regulars can often clog up your chat.

You can add and remove Regulars from Nightbot either through the Regulars page on the Control Panel or through the regular command in the chat. You can Add User on the Regulars page and enter the username or YouTube channel ID of the user you wish to appoint as a Regular. On the same page, you can also delete appointed Regulars.

AutoDJ

AutoDJ is nearly a full-fledged DJ system included in Nightbot. It allows users to recommend songs, and also contains a music player alongside a

The screenshot displays the Nightbot web interface for managing song requests. The sidebar on the left contains various control options. The main content area is titled 'Song Requests' and features a search bar at the top. Below the search bar, there are buttons for 'Disable', 'Clear Queue', 'Request Song', and 'Settings'. A progress bar indicates the current song's duration (00:30 / 04:31). The 'Current Song' section shows a music player for 'Tristram & Braken - Far Away' by Monstercat. Below this, the 'Queue' section displays a table of upcoming songs.
