Muting someone on Discord

1. **Pin Messages:** You can pin messages on a channel that you wish to highlight to all its members. These members can easily be accessed by clicking on the pin icon at the channel screen's top right. You can also unpin the message from here. To carry out these actions, you need permission to Manage Messages.
2. **Delete Messages:** Using the Delete Messages option, you can permanently remove a Discord channel message. To delete a message on a channel, you need to have the Manage Messages permission.

Additional permissions

Apart from the above permissions that govern your activities in certain special settings, there are several different permissions on Discord. Here is a list of some of these permissions.
