Laying the ground rules

Learn about setting up user roles, organising a channel and more on Discord.

How to get started with Discord?

Discord works on private servers, where people can create groups and communicate with their teammates or friends while enjoying the game together. Unlike other applications, Discord works super smooth on your desktops as well as mobile platforms without hogging resources on your device. This application/ software allows the user to use a perfect combination of a message board, a VoIP chatting system, and a private chat lobby.

According to a survey, the application and software are now being used by more than 90 million active users across the globe. If you are looking for a platform that can bring your group together for a game of PUBG or
