

8. Groovy

Groovy is the best music bot for Discord. It is easy to use, lag-free and supports more websites as compared to other music bots. It allows creating playlists, queuing up songs, skip songs, and even display lyrics. A free version offers everything you need to turn your discord channel into a lively place. With the premium version, you can unlock even more unique features.

Here are a few quick commands for Groovy:

- play- link or search query
- play file- Plays the file attached to the message.
- join- Causes the bot to join your voice channel.
- queue- the queue is displayed.
- next- Passes over to the next song.
- back- Passes over to the previous song.
- clear- Removes all tracks from the queue.
- jump- track position or title
