- reason

11. Octave

Octave is a very popular music bot for discord. It allows you to play any songs available on YouTube, Soundcloud, or your voice channels. It allows you to create a playlist and add your favourite songs to them. You can pause, replay, queue songs, or ask Octave to display a song's lyrics. Octave what is created using a very powerful infrastructure and therefore provides a seamless experience without any lags. It has easy to use commands, and it is constantly improved with new innovative features. Using its premium account, you can unlock longer queues, track lengths, and create unlimited custom playlists.

12. IdleRPG

IdleRPG is one of the coolest discord bots. It brings a splash of fun of a
