

Play Animation

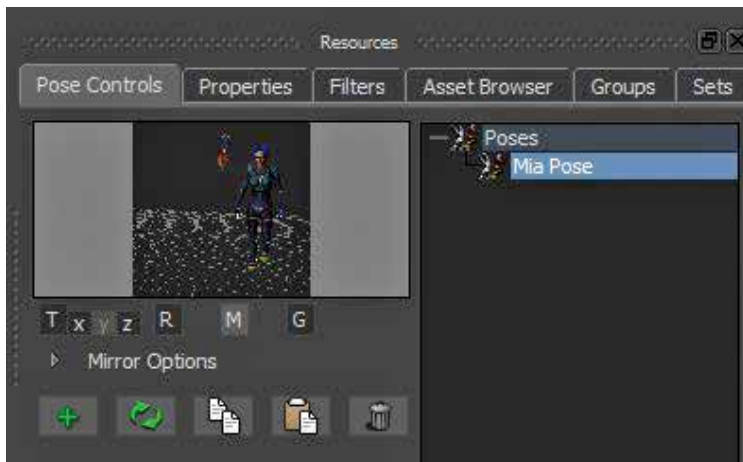

2. Ensure that you have selected Mia as the character. In the character control window, choose hips effector.
3. Select the right ankle effector
4. Proceed to the resource window. From that window select the pose control tab. Under the pose control tab, you can see options. Start with expanding the poses.
5. Go to the transport control option and drag from the first frame to the last by using Ctrl-Left Arrow and Ctrl-Right Arrow.

Character Control

Match Clip

When you are done with creating poses, the next step is to match the clip.

Pose Control
