

WEB APPS TO SIMPLIFY YOUR LIFE

Become a wizard at all sorts of tasks
by leveraging these nifty web services

When you need the freedom to work from anywhere using any machine, there are few solutions other than web apps to get the job done. Web applications have come a long way since they were first introduced. These apps are now secure, multimodal and even economically feasible with new-age subscription models that allow you to pay for only how much you wish to use the service. With HTML5, PHP8 and new frameworks, these web apps are even light on hardware resources and just as feature-rich as their desktop counterparts. Here are some of the most versatile and useful web apps that you'll ever need.
