

Simplenote

Note-taking apps are highly essential in an organised person's life. Simplenote is a note-taking application that makes its user's life easy by helping them organise their ideas and schedules in notes and lists. Simplenote easily syncs with most computers and mobile devices, including iOS, Android, Linux, Mac, Windows, and the web. Also, Simplenote's biggest benefit is that it is free of cost.

The Simplenote app will automatically be updated across all your other devices once you edit a note on your device. The application is excellent for

managers and administrators, allowing them to work smoothly with their employees by posting and sharing guidelines, new policies, and the company's instructions on the app itself. Looking for notes is very easy and doesn't take much of your time as Simplenote features instant searching with simple tags. The app also backs up your notes whenever you modify them and allows users to share their notes or lists and post their insights.
