

iOS APPS FOR EVERY APPLE FAN

If you're starting off with a new iPhone, you must install these apps

Introduction – Moving to a new platform can often be a tedious experience as you go about exploring the new features and their nuances. Most folks moving to an iOS device would be coming from either an Android device or from the erstwhile Windows Phone devices. While the transition from Android has been simplified, that isn't the case with other platforms. So, we're going to make it easy for you to make the most of your new iPhone with this nicely curated list of must-have apps. We've got everything from adblockers to to-do lists to photo editors.
