

Widgetsmith

Widgetsmith is an application that clears all the clutter from your device's home screen. The app helps you to customize the screen so that all the important apps are visible and accessible to you when you unlock the screen. It was the most downloaded application in 2020. Free to download, the app allows you to create widgets of various colours and different sizes: small, medium, and large. It highly helps in organising applications of your iOS devices. With

a monthly fee of \$ 1.99 or an annual subscription of \$ 19.99, you can enjoy many useful features of the premium version.

You can apply different colours, themes, and fonts to your widgets to make them look more engaging. Some of the important features of this application are the weather, date, time zone converter, calendar, and astronomy widgets. Once you comprehend the full potential of this app, you will begin to enjoy it better. It is available for android devices, iPad, and iPhones.
