

have some fun. Remember, stickers and text are pretty much the same things in the InShot app, so don't get confused.

What are stickers and text?

While surfing Instagram, YouTube, or watching TV, you must have come across videos that contain stickers and text that make them more fun and engaging. Adding these animated GIFs or stickers to a video enhances engagement and makes the video look visually appealing.

How to overlay text supers and stickers?

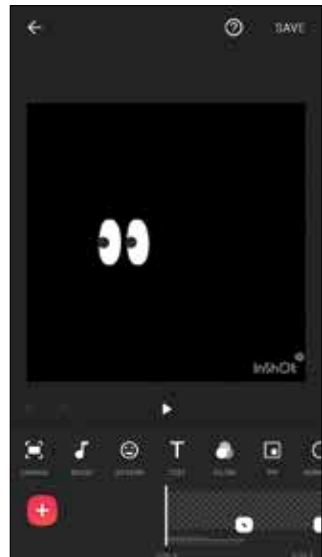

Follow these steps to understand the sticker and supers overlaying process.

- Open the InShot app.
- Scroll from left to right to spot the text icon.
- Click on the text option to carry out the process.
- Type the text you want to display on the video, for example, “Hello friends, how are you doing?”
- Change the colours of the text as per your preference.
- Add a border, create shadows, labels, and adjust the opacity.
- You can change the size and the font of the text.
- Click on the Save button.

Move the text over the video wherever you want to place it and follow the same process with stickers.

- Move back to the home page and click on the stickers feature.
- Choose any of the displayed stickers and adjust them on your video.
- You can increase or decrease the size of the sticker, so it looks natural.
- Once you're happy with the final outcome, press the tick button.
- Like all other effects, you can move the stickers and text over the timeline.

Overlaying text and stickers on the videos is a really cool feature that video editors love. This feature is not only easy to use but enhances your content engagement.

Using stickers is fun!
