

Add Effects, Stickers or Text to enhance your video

Step 6: Adding background music

If you want to add music to the video, select and place the vertical red line from where you want to start the audio or music. Then, in the main menu select the audio icon and suitable music from your device. KineMaster Audio Browser also displays several music options. Apart from this, you can also download music or audio files.

After selecting the appropriate music file, hit the red plus sign to add it to your file. The name of the track will appear in the lower section.

KineMaster audio browser displays several music options.
