

What does the competition do?

Being at the top sure has its perks, but be prepared for competition

Adobe After Effects just so happens to be one of the market dominators like Amazon and there are other competitors in the industry but in terms of popularity, AE sits atop the throne. Even so, it's always interesting to see what the competition offers and what it doesn't; not faring well usually has so much more to do than just the product. A host of factors like marketing and execution also
