

Learning Resources

1) Gareth Dave Studio – YouTube

This is a completely free resource on YouTube. With 49 videos neatly packaged chronologically as a course, this course explains everything in a sequential order. While the course is free, he offers some additional material to work with which can be bought at a nominal fee of 5.50 Euros.

2) Adobe Creative Cloud Tutorial

Once you get into the Adobe website, the Learn and Support sub section under the After Effects page has 3 different types of help.

- i) **Get Started** – Literally starts from how you can start downloading and installing After Effects along with various forums for beginners. There's also a simple list of the most basic tutorials.
- ii) **Tutorials** – This includes tutorials for all levels of users – beginners
