

This means that if any person is found guilty of an offence, or is found to be involved in activity that might have a negative impact on the security and integrity of India, they shall be liable to investigation of their private information, even if it is in a computer relates storage solution and source.

## The penalties and punishments

The IT Act also lists out a certain set of offences and related punishments which shall be given to the person who is found guilty of committing any act that is considered an offence under this act.

| SECTION | OFFENCE                                                     | PENALTY                                                                                                                                                                        |
