

Linux desktop environments. Imagine working on a platform that isn't consistent enough? Well, it can mess with your head. When it comes to your configuration, Pantheon is on its toes to maintain the reliability and consistency of the work so that it does not unnecessarily open doors for mishaps.

5. Overall appearance

No matter how much you ignore it, we all like a decent-looking desktop. Although it's not easy to customise on Pantheon, it does offer numerous options, making Pantheon one of the classiest looking desktop environments of all time, even if it's not the best-looking one.

How Is The User Experience?

User experience plays a significant role in the success or failure of a Linux desktop environment, as it decides whether the product meets the users' expectations. After the development of Pantheon, it was not an overnight success as it lacked visuals, which unfortunately did not attract many users. However, as time passed, Linux users started to prioritise quality over aesthetics; hence, they moved towards Pantheon, which offers a great user experience. Below, we listed down some benefits of Pantheon, which will help you understand how users feel after getting into this environment. They are as follows-

1. Straightforward

When it comes to Pantheon, it's nothing like most of the Linux desktop environments with home screens packed with applications and exciting themes to make it look different. Hence, if you're a regular Windows user who has no particular idea how the desktop environment works, the best you can do is start your journey with Pantheon. It is pretty straightforward yet manages to do the job efficiently.

2. Easy to use

How about a Linux desktop environment that isn't the most stylish but exceptionally easy to use? Over the years, it has positioned itself on the list of top Linux desktop environments, managing all work without any difficulties.

3. Speed

Pantheon might not be the most beautiful desktop environment of all but it surely helps in meeting deadlines the fastest. Pantheon is a great choice for
