

advanced users, unaffected by how their desktop screen might look, as it promotes 'speed at work' while keeping the distractions out of the window.

Features of Pantheon

As we have already laid much attention on the benefits of the Pantheon desktop environment, it's time to throw some light upon the features of Pantheon. Some features of Pantheon are listed below. Let's have a look-

1. Desktop

The desktop of the Pantheon looks pretty clear and organised from a distance. It features a bar of applications at the bottom of the page. The translucent top panel consists of the word 'Applications' in the left-hand corner, whereas the right-hand side has all the status bar icons. Apart from these, the entire desktop remains clean as their markers support a clutter-free desktop approach.

2. Dock

One of the best parts of the Pantheon desktop is the 'Dock'. The dock majorly features the most recent apps; it's extremely fast and looks elegant at the same time. The notification corner features unread emails, whereas the recent updates are available in the 'App Center'.

3. Wing panel

The wing panel is another important feature of Pantheon, as it is the only

The Pantheon Wing Panel.
