

exclude any results that contain bowler hats. To do this, simply use the - sign in front of the word you want to exclude.

Example: green hats -bowler

3. OR Operator

By default, when you conduct a search, Google will include all the terms specified in the search. If you're looking for any one of one or more terms to match, then you can use the OR operator. (Note: The OR has to be capitalised).

Example: green hats OR sombreros

4. In Text

If you want to find a web page where all the terms you're searching for appear in the text of that page (but not necessarily beside each other), type in `allintext:` followed immediately by words or phrases.

Example: `allintext:bowler top sombrero style`

You can search within specific components of a web page

5. In Text + Title, URL etc.

If you want to find a webpage where one term appears in the text of that page and another term appears elsewhere on the page, like the title or URL, then type in that first term followed by `intext:` followed immediately by the other term.

Example: neil diamond `intext:green hats`
