

Icon packs

You don't have to use what the app developers give you

Are you tired of looking at the same icons on your phone every day? Do you wish that they would be just a bit more good looking? Do you want to change their colour, size and shape? Do you just wish that your phone manufacturer gave you the option to change the icons whenever you want? Well, we too wish the same things and that's why the whole point of this chapter would be Icons. Yeah well, believe it or not, icons are often overlooked in the world of customisation. You may put a good widget on your home screen or just a good wallpaper. You may even change the default home launcher of your phone but you often tend to forget an integral part of the home launcher i.e. the icons. We admit that some stock icons are just not to our liking. If you fall in the same category and wish to change all the icons on your phone, well you've come to the right place.

Icon Packs. The name is self-explanatory. It's basically a collection of similarly-styled icons that you can apply to your home screen and completely change the icons in it. No more stock and ugly icons. Only minimal and good looking icons from now! And the best part is that some icon
