

you go to the Reminders tab, press the small “+” button in the bottom right corner of the screen.

Now, tap on Attach SMS and then select the chat from which the reminder message will come. Now, simply select the message which you need to be reminded of and press Attach on the top right corner of the screen.

Once the SMS has been attached, fill in the date, time and the description accordingly. Then tap on Create and your reminder will be created. It will show up in the Reminders section and on top of your Messages section till you either Dismiss or Delete it.

In our opinion, the best tabs out of these 4 tabs are the last two tabs. Finance and Offers. Usually, whenever we make a transaction through our bank or use an online wallet like PayTM wallet, we

get an SMS giving us the updated balance in our account and the transaction details. The Finance tab combines all of the messages regarding our finance details like bank balance, wallet balance, etc. It even bifurcates between Bank Accounts and Wallets!

The best part about this is that you can choose to show / hide your balance and you can even add security to it! Just tap on the three dots on the top right corner of the screen and tap on Settings. There, find the third last option which says “Enable security for Finance” and toggle that setting on.

Now, whenever someone tries to toggle the “Show Balance” or someone
