

really have something to worry about or not. We also look at the future of robotics and a lot more.

We hope this FastTrack piques your interest in robotics. Getting started is really easy and you don't even need to get started with ROS any time soon. Let us know if you have any feedback and we'll definitely incorporate them in our future FastTracks. Also, if you have any suggestions for upcoming FastTracks, then let us know on editor@digit.in
