

Everything in one place

decent presentation package. However, they're just the tip of the iceberg. Zoho Workplace also contains a robust site creation tool, a file management system, and a slew of collaborative features. Some are really basic, so they won't likely replace anything you already have, but if you're just starting out as a small business, Zoho is certainly a decent place to start. If you wish to sign up for the free version of Zoho Workplace, look for the "Forever free" option.

Polaris Office

You may already be familiar with the mobile version of Polaris Office if you have a Samsung smartphone. This cross-platform free office programme is available for Windows, macOS, Android, and iOS. It supports all Microsoft document types and features a stylish ribbon-based interface with modest customization possibilities.

To use this, you must either sign in with Facebook or Google, or establish an account. Your Polaris account is free. You may save work locally to your
