

UI Customisation Apps

Make Windows look and feel a little unique with these apps

Windows 11 has a number of useful user interface (UI) upgrades compared to Windows 10. When you upgrade to Windows 11, you'll see a whole new start menu, a redesigned Taskbar, and a modern file explorer. If you're one of the users who isn't sold on Microsoft's Windows 11 design philosophy, we've found the perfect answer for you. Fortunately, there are many programmes available that let
