

FreeFileSync

FreeFileSync is a folder comparison and synchronisation backup software designed to run on Windows, Mac and Linux. FreeFileSync provides its users with a clean and easy interface. It comes with numerous features included for synchronisation. Designed to save your data and time, instead of copying every file every time, FreeFileSync determines the differences between a source and a target folder and transfers only the minimum amount of data needed. It sets up and runs data backups with good visual feedback. This application supports comparison of
