

Basic Code

You can try the following code for practise:

CSS Syntax

```

• <!DOCTYPE html>
• <html>
• <head>
• <style>
• p {
•   color: red;
•   text-align: center;
• }
• </style>
• </head>
• <body>

• <p>Hello World!</p>
• <p>These paragraphs are styled with CSS.</p>

• </body>
• </html>

```

CSS Selectors

```

• <!DOCTYPE html>
• <html>
• <head>
• <style>
• p {
•   text-align: center;
•   color: red;
• }
• </style>
• </head>
• <body>

• <p>Every paragraph will be affected by the style.</p>
• <p id="para1">Me too!</p>
• <p>And me!</p>

• </body>

```
