

Podcast production 101

Got something really good to talk endlessly about? Start a podcast.

It is not difficult to start a podcast, but there are a number of steps that need to be completed in order to get it up and running successfully.

In this guide to podcasting, we will go over each and every step of the process, beginning with the basics:

- Choosing a topic & name
- Show and episode format
- Cover art creation
- Intro & outro music
