

12 > Navigating the Notion interface

and edit your content. It's where your pages and databases reside.

Advanced sidebar management and organisation:

A well-organised sidebar is pivotal for efficient navigation. Here are steps to manage and organize your sidebar:

Creating New Pages:

Click on the '+ New Page' button in the sidebar, name your page, and start creating content.

Using Icons and Covers:

Customize pages by adding icons and covers. Click on 'Add Icon' or 'Add Cover' at the top of a page to personalize it.

Organizing Pages:

Drag pages to rearrange them or nest them under other pages to create a hierarchical structure.

Workspaces, Pages, and Sub-pages:

Understanding the hierarchy of Workspaces, Pages, and Sub-pages is essential for organizing your data. Here's a breakdown:

Workspaces:

Workspaces are like individual accounts within Notion. You can have multiple workspaces for different projects or teams.

Pages:

Pages are where you create and manage your content. They can house text, images, databases, and more.

Sub-pages:

Create sub-pages within pages to establish a hierarchical data structure. Click on the '+ New Sub-page' button within a page to create a sub-page.

Utilising Bookmarks and Shortcuts:

Efficiency in Notion can be heightened with bookmarks and shortcuts:

Bookmarks:

Bookmark frequently accessed pages by favoriting them. Click on the 'Favorite' star icon next to a page in the sidebar to bookmark it.

Keyboard Shortcuts:

Utilize keyboard shortcuts for common actions. Press Ctrl + / (Windows) or Cmd + / (Mac) to view a list of shortcuts.

Multitasking with Multiple Windows and Tabs:

Notion supports multitasking through multiple windows and tabs:

Multiple Windows:

Open Notion in multiple windows to work on different pages simultaneously. Right-click on a page and select 'Open in New Window'.

Tabs:

Open multiple tabs within a Notion window to switch between different pages easily. Click the '+' icon next to the active tab to open a new tab.
