Exploring the Image Library

- **Accessing the Library:** On your Canva dashboard, click on the 'Photos' tab to access a wide array of images. You can also find specific elements under the 'Elements' tab.
- **Searching for Images:** Use keywords to search for images. For example, type 'nature' for outdoor scenes or 'technology' for modern graphics. Canva provides filters to refine your search based on colour, style, and more.
- **Choosing the Right Image:** Select images that complement your design's message. Consider the colour scheme, subject matter, and overall mood of the image.
