49 All That IE Can Be

So you've decided to stick with Internet Explorer, and have upgraded to the spanking new IE7. Sure it looks good, but here's how to make it as functional as it can get

52 Bazaar

NVIDIA's DirectX 10 cards have arrived in India—and not one, but two, made it to our Test Centre. Then there's a Kodak for casual clickers, a little laptop laser mouse, a Buffalo 500 GB external drive, and more. Software tested includes GoToMyPC and a couple of anti-virus suites

Agent001

74 Hard Drives, Soft Prices

You've been downloading away, and your disk's overflowing. What you need is—surprise—a new hard disk! Agent 001 tells you precisely what to buy in this day and age

76 Know More About

"NAT". "Firewall". Words you hear your sysadmin—and geek friends—spouting. Now learn what these actually do

77 Old Way, Tech Way

What's better—doing your homework the hard way or getting someone to do it for you? There is a homework help section at Yahoo! Answers

78 Net Gain

You find a recipe, and hunt for the stuff. Don't! Find out what you can do with what you *have*. Also make an H-Bomb, and *really* discover Net radio
