Cables and Accessories

In addition to FM aerials, IR, and audio cables, there were very few accessories. The Compro VideoMate TV Gold⁺II comes with an internal audio connector as well as a power cable that goes to the motherboard, so the remote control of this TV-Tuner can be used to switch the PC on or off.

Likewise, cards from Leadtek Winfast and Pinnacle, and the PixelView PlayTV P3000, have

internal audio cables. These do away with the jungle of external audio cables.

The AV-in cables that come with the Leadtek Winfast cards present a very good opportunity for people to brush the dust off their old camcorders or VCPs and connect them to these cards.

The Software Bundle and PVR

All the TV Tuners come with PVR software that not only lets you view and record TV programs,
