## Directions

A comprehensive search engine shootout would be highly desirable, but is, sadly, impossible. Here's our look at how well the major three search engines perform—and also at what apart from these you might, or might not, consider

Child's Play 31

You need to know about at least a few good online places where kids can really have fun—it's not just about keeping them away from the bad places

18

## Safety First

Time has taught us that there are too many, in fact way too many, people out there who don't follow the basic precautions when it comes to getting online and being there for a while. The bad news is that bad things can easily happen, and the good news is that it's easy to prevent it. Find out what and how

30 Days With  
Second Life

We've spoken quite a bit about the "game" called *Second Life*. Now one of us actually spent a few hours each day for a month in that removed-from-reality atmosphere—here's the report

Know More About  
Display Interfaces

Whether it's because you own a device, or because someone comes to you for help, it's good to know what goes where—in terms of connectors. Here's about the newer-generation connectors for displays

24

## Comfortable Control

So well, they aren't glamorous, but you need to choose well. Here's a mini-shootout of input devices—we've done much of the elimination work for you by choosing only those really worth considering if you want a hand-friendly computing experience
