PERSONAL OpenJuds RTI

A free database of Right To Information Act cases, created by Digit reader Prashant Iyengar.

DEVELOPERS VirtualBox 1.5.4

InnoTek VirtualBox is a general-purpose full virtualizer for x86 hardware. Targeted at server, desktop and embedded use, it is now the only professional-quality virtualization solution that is also Open Source Software. Not only is VirtualBox an extremely feature rich, high performance product for enterprise customers, it is also the only professional solution that is freely available as Open Source Software under the terms of the GNU Public License (GPL). Presently, VirtualBox runs on Windows and Linux 32-bit hosts and supports a large number of guest operating systems including but not limited to Windows (NT 4.0, 2000, XP, Server 2003, Vista), DOS/Windows 3.x, Linux (2.4 and 2.6), and OpenBSD.

■ VMware Player 2.0.2

■ Java SE Development Kit (JDK) for Windows 7 Build b24

■ Notepad++ 4.7 ■ Android SDK

Gaming

FREE Sauerbraten: Assassin Edition

Sauerbraten is now available for download, allowing you to play this free multiplayer/singleplayer first person shooter, built as a major redesign of the Cube FPS. Much like the original Cube, the aim of this game is not necessarily to produce the most features & eyecandy possible, but rather to allow map/geometry editing to be done dynamically in-game, to create fun gameplay and an elegant engine.

FlightGear v1.0

"With FlightGear it is possible to choose between three primary Flight Dynamics Models. It is possible to add new dynamics models or even interface to external ""proprietary"" flight dynamics models:JSBSim: JSBSim is a generic,

6DoF flight dynamics model for simulating the motion of flight vehicles. It is written in C++. JSBSim can be run in a standalone mode for batch runs, or it can be the driver for a larger simulation program that includes a visuals subsystem (such as FlightGear.) In both cases, aircraft are modeled in an XML configuration file, where the mass properties, aerodynamic and flight control properties are all defined."

DEMOS The Witcher

Set in a world created by best-selling Polish author Andrzej Sapkowski, The Witcher combines spectacular action and an intriguing storyline. You are a Witcher, a warrior who has been trained to fight since childhood, subjected to mutations and trials that have transformed you. You earn a living killing monsters, and are a member of a brotherhood founded long ago to protect people from werewolves, the undead, and a host of other beasts.

Tools

MULTIMEDIA Soundbase 2008.01.01

Soundbase was created to fill a gap in the large amount of free and commercial players/taggers. We do not pretend to have the ultimate audio solution, but Soundbase will most likely fit somewhere into your playing or tagging experience—it will always give you a quick way of doing common tasks.

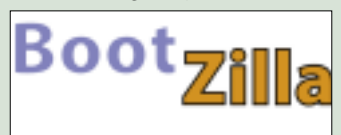

Jajuk

Do you love music? Do you need a place to get your collection together? Are you interested in getting an advanced jukebox FREE! Try Jajuk, it is a Java technology-enabled music organizer for all platforms. It can organize the largest, most scattered music collections and was designed to be intuitive and fast.

- Kaspersky Internet Security 8.0.0.148 Beta

INTERNET WordPress (2.3.2)

WordPress started in 2003 with a single bit of code to enhance the typography of everyday writing and with fewer users than you can count on your fingers and toes. Since then it has grown to be the largest self-hosted blogging tool in the world, used on hundreds of thousands of sites and seen by tens of millions of people every day.

Transfz 1.15 Beta

Transfz (pronounced transfuse) is a integrated search agent in the form of a context menu that allows the user to launch online searches from any document or application on both the desktop and the web. Supports powerful extensions: Search and Replace, UPPER case, HTML insert...etc. Use the build-in

Plugin Creator to easily allow your favorite search engine to become a omnipresent standard in your desktop/web experience. Finally, Transfz also contains a clipboard list of the last 5-30 items copied.

INTERACTIVE

Fedora 8 DVD

Fedora is a Linux-based operating system that showcases the latest in free and open source software. Fedora is always free for anyone to use, modify, and distribute. It is built by people across the globe who work together as a community: the Fedora Project. The Fedora Project is open and anyone is welcome to join. Boot from this DVD to begin installing Fedora. The folder contains the ISO for the Fedora Rescue CD.

Entertainment

MOVIES Steal This Film II

These are strange times indeed. While they continue to command so much attention in the mainstream media, the 'battles' between old and new modes of distribution, between the pirate and the institution of copyright, seem to many of us already lost and won. We know who the victors are. Why then say any more?

THEMES Vista Themes

Vista Theme For Windows XP. This theme pack includes two VistaVG Themes: VistaVG Ultimate & VistaVG Blue. Both of these were created by Digit Forum member and Microsoft MVP—Vishal Gupta.

TRAILERS SimCity Societies 'Evolution' Trailer

This trailer for SimCity Societies shows how you will have the freedom to build the city of your choice. A giant range of options and ideas are available, all the power is in your hands.

GTA IV—Trailer III—Move Up Ladies

Rockstar has released the third official trailer to the much anticipated, and delayed, Grand Theft Auto IV. The trailer, titled "Move Up, Ladies", comes in the satisfying and detailed HD variety and showcases much of the storyline and action players should expect from the new title.

Duke Nukem Forever Teaser Trailer

As promised, 3D Realms has released a teaser trailer from Duke Nukem Forever

GAMING

Frets On Fire

Frets on Fire is a game of musical skill and fast fingers. The aim of the game is to play guitar with the keyboard as accurately as possible.

GAMING

FREE Vivid Conceptions

Vivid Conceptions is a platform game unlike anything you've seen before. In it, you play the role of the last surviving Bantam, a creature that predated even the dinosaurs but was almost invisible to the naked eye. It's your job to journey across the underground in search of the last refuge on the planet...

TOOLS

MULTIMEDIA emTube

emTube is an application for Symbian S60 3rd edition phones that allows you to: Search and browse videos on YouTube. Download selected videos onto your

phone. Stream FlashVideo files directly from YouTube. Play local FlashVideo files.

PhotoFiltre 6.3.0

PhotoFiltre is a complete image retouching program. It allows

you to do simple or advanced adjustments to an image and apply a vast range of filters on it. It is simple and intuitive to use, and has an easy learning curve. The toolbar, giving you access to the standard filters with just a few clicks, gives it a robust look.

- Mp3tag 2.391 Beta
- WinUAE 1.4.5

SYSTEM TestDisk for Windows 6.9 Beta

TestDisk is a powerful free data recovery software. It was primarily designed to help recover lost partitions and/or make non-booting disks bootable again when

these symptoms are caused by faulty software, certain types of viruses or human error (such as accidentally deleting your Partition Table).

- NVIDIA BIOS Editor (NiBiTor) 3.7
