

GREED

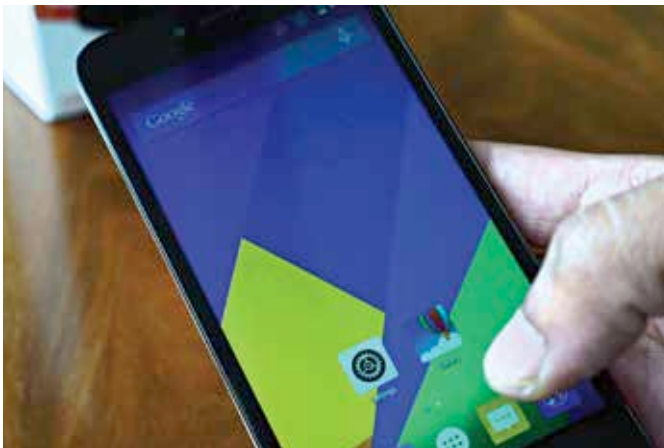

MOBILE WATCH

Stylish, glamorous and interesting smartphones are always on the horizon. We take a closer look at what's hot in this space...

Infocus M888

InFocus is set to release a phone on the 30th of May, but the benchmarks for a new phone, codenamed "InFocus M888", showed up on the Antutu benchmarking website. The phone runs TencentOS 2.0 powered by Android 6.0.1. TencentOS is an OS designed by Tencent Holdings limited, who are also the creators of WeChat.

The display size isn't revealed yet. But, it boasts a full HD (1920 x 1080) display. It is rumored to be powered by a deca-core Mediatek CPU, and a Mali-T880 GPU, and also has 3GB of RAM. According to the leak, it has a 16MP back camera, and 8MP front camera. The Antutu benchmarks scores are quite good. Nothing is known about pricing yet.

Kyocera DuraForce XD

If you're looking for a phone which you can be careless with, the Kyocera DuraForce XD is the one for you. It's built like a tank, and it sure can take a beating. Or even a bathing. The build quality is rugged, and it is more than capable of handling rough usage. Although it is very large, and heavy, the phone treats rough weather and abuse like nobody's business. The build materials, obviously, include a number of toughened plastic, rubberised materials, and glass.

It sports a 720x1280 display, and runs Android. It is also IP68 certified water and dust resistant, and Military grade shock, radiation, and vibration resistant. This baby can take a rough, rough ride, and it'll come out mostly unscathed.

OnePlus Three

The OnePlus Three is the company's flagship phone for the year. OnePlus is a brand which is known to push the specifications of flagship phones and its invite only sale system. The full specifications of the phone aren't announced yet, but what we could glean from some of the leaks was that the OnePlus three will be running Android 6.0, and will be sporting a 1080x1920 full HD display.

It will be powered by a Qualcomm MSM8996 Snapdragon 820 chipset, and an Adreno 520 GPU. It will come in 32GB, and 64GB storage variants, and 4GB and 6GB RAM variants. It'll have a 16MP front camera, with dual LED flash, and an 8MP front camera with 1080p video recording. It will also come with a USB Type-C port.
