

6 Watch TV - hotstar, voot, netflix

Watching TV has become a rarity nowadays, with most of the young audience switching to web series and international shows. With that in mind, video-on-demand and online TV services like hotstar, Voot and the global giant Netflix are growing everyday. In fact, hotstar has been live streaming most ongoing tournaments and even the Academy Awards this year.

7 Smartphone/tablet repair - Just Like new

That feeling of dread when a smartphone slips from your hand can be the worst. You probably already calculated the repair costs and the hassle you'd have to go through before the phone even hit the ground. Not anymore, with JustLikeNew and Bigfix

offering pickups and repair services for your smartphones and other electronics at your doorstep.

10 Paying bills - Paytm

Gone are the days when you had to stand in queue at some old office to pay your bills. With a number of mobile and online payment solutions available, we recommend Paytm due to its well integrated mobile wallet along with the many cashbacks that you can use for several things from cab services to online shopping. You can opt to permanently discontinue paper bills and save a lot of paperwork in this approach.

11 Salon - purplelle, Vyomo, vanitycube

If Practo was your medical assistant, purplelle is your grooming assistant. It lets you book appointments at beauty salons and spas around you, and contains details of the ser-

vices offered at these places along with pricing. But if you still don't want to step out of the house to feel groomed, try Vanitycube or Vyomo to call beauticians and grooming specialists to your doorstep and get your haircuts, styling, pedicures and all other grooming needs satisfied in the comfort of your own home.

8 Grocery - Grofers, Big Basket

Not everybody likes to lug their monthly rations and groceries back home from the store. Due to lazy people like me, Grocery delivery startups like Grofers and Bigbasket have overcome the initial scepticism and have started widespread usage in metros. With slotted deliveries, store choices and same-day delivery options, you can consider your grocery needs satisfied.

9 Doctor - Practo, Portea, netmeds

An apple a day may not necessarily keep the doctor away, but there's apps like Practo and Portea that make the whole experience more bearable! Through Practo you can find doctors based on specialisation, experience, and more. It lets you book appointments and also has a doctor's side which lets them share prescriptions and reports directly. Netmeds delivers medicines directly to your home.

12 News - Nuzzel

It's no breaking news that newspapers are in decline. And don't even start with television news. This situation with news mediums has led the newer generation to switch to apps and websites for information. Nuzzel is one such app that integrates news reading with social media by analyzing your timeline for the in-trend and breaking news to bring relevant news stories to your

13 File your taxes - ClearTax

Many of you might have torn your hair apart trying to file your taxes on time. After all, nobody likes paperwork, right? ClearTax has been around for a while and is an easy solution for your woes. They also launched a mobile app recently that is optimized to work on 2G networks and even allows offline filing.

14 Tutoring - Vedantu, BYJU

Even if you are not a student yourself, you might know someone who is. Edu-tech startups like Vedantu and BYJU are coming up with ways to bring students closer to learning. Vedantu offers one-on-one tutoring on a proprietary platform whereas BYJU's offers quality content with the student's learning process in mind.

15 Fitness

Using all the above services while sitting comfortably on your couch will make you an unfit couch potato. We absolutely don't want that to happen. Fitso is an exercise tracker which will keep track of your workout. You can even enroll a coach to guide you. HealthifyMe provides you with detailed information about the food you're consuming, after a manual entry of the same.
