MOBILE WATCH

Stylish, glamorous and interesting smartphones are always on the horizon. We take a closer look at what's hot in this space...

Huawei Maimang 5

Huawei's Maimang 5 is a successor to the Maimang 4 that was launched in the foreign markets as Huawei G8 (whereas this one could be called Huawei G9). The Maimang 5 boasts a full metal body construction along with rounded corners and a 2.5D curved 5.5-inch Full HD IPS display on the top. Under the hood, the phone is powered by a 2GHz Snapdragon 625 octa-core processor and is available in two variants – 3GB RAM with 32GB internal storage and 4GB RAM with 64GB internal storage. You also have a 16MP

rear camera with OIS and PDAF that can also record 4K videos. For those amazing selfies, the phone features an 8MP front-facing camera that includes several beauty filters. The phone is backed by a 3,340mAh battery, runs on Huawei's EMUI 4.1 that is based on Android 6.0 Marshmallow and comes with a fingerprint sensor on the back. The 3GB RAM variant is priced at ¥2399 (approx ₹24,000) and will be available in Champagne Gold and Moonlight Silver colours whereas for the 4GB RAM is priced at ¥2599 (approx ₹26,000) and will be available in Champagne Gold and Rose Gold.

ZTE Nubia Z11

ZTE's Nubia unveiled its latest flagship smartphone, the Z11 with true flagship-level specs all-round. The phone boasts an all-metal construction and an almost bezel-less display that is guaranteed to attract viewers. The ZTE Nubia Z11 is powered by a Qualcomm Snapdragon 820 chipset and comes in two variants – 4GB of RAM with 64GB of built-in storage or with 6GB of RAM with 128GB of internal storage. In both cases, the memory is expandable via a microSD card. The rear camera is a 16 MP shooter that houses Sony's IMX298 sensor and comes with OIS, phase detection autofocus (PDAF), f/2.0 aperture and a sapphire protection lens. On the front you have an 8 MP camera with 1.4 micron pixels and f/2.4 aperture. On the front is also a 5.5-inches 1080p display instead of the expected (or we can even say deserved) 2K display. The ZTE Nubia Z11 comes with a 3000 mAh battery along with Qualcomm Quick Charge 3.0 and runs on Android 6.0 Marshmallow underneath the Nubia UI 4.0. On the rear, you also have a fingerprint sensor that can unlock your phone in 0.1 seconds, as claimed by Nubia.

LG X Mach

Out of the four phones launched by LG in its X lineup, the X Mach supports LTE Cat. 9 3CA data transfer speed, the new LTE-Advanced standard. The phone is powered by a 1.8GHz hexa-core processor along with 3GB of RAM and 32GB of internal storage that can be further expanded up to 128GB. On the top, the LG X Mach features a 5.5-inch IPS Quantum (1,440 x 2,560 pixels) display with 534PPI. Speaking of the design, the phone follows a very minimalistic design overall. The phone also boasts a 12.3MP rear camera.
