

DEUS EX

MANKIND DIVIDED

SPORTS GREAT LEVEL DESIGN AND DIVERSE GAMEPLAY

I have a confession to make. I haven't played any of the previous Deus Ex games. Before you become all judgmental I'd like to inform you that that's a good thing. I'm not a fanboy so this analysis will be free of prejudice and from someone getting a taste of the franchise for the very first time.

STORY

The story of Deus Ex: Mankind Divided kicks off after the events of the previous game, Human Revolution. If like me, you haven't played Human Revolution, then worry not. The game opens with a recap of everything that happens in Human Revolution. If you pay attention to the recap, it will be clear to you that the story has a lot of

plot twists and turns which seem pretty good. It also makes it clear that the protagonist travels to a variety of locations. These things are dialed down in Mankind Divided and it's a bummer especially since the recap is proof that Human Revolution had a kickass story. The locations you do visit however are lush and don't warrant complaints.

So 'how is the story' you ask? Well, it's filled with the usual twists and turns and just like Mass Effect or the Witcher, your decisions affect the final outcome. There are points where you have branching paths, which means that if you want to experience all the angles of the story, you will have to play the game a bunch of times.

Without spoiling anything, the events of the last game have left a bitter taste with regards to the augmented population. Adam Jensen – the protagonist – is working with Interpol along with a hacker organization to uncover the activities of the Illuminati. Overall the story is fun but the only downside is that the outcome of your choices is narrated to
