WAR.

War never changes. Arguably one of the most iconic video game quotes of all time. We're sure we needn't tell you where it's from, most of you would have already guessed (it's in the title) where it's from. If you're a gamer at all, no matter what genre or what console, we're 100 percent sure that you've played or at least heard of Fallout.

So how did it all begin?

Those of you who've played any of the Fallout games know the setting. They're all set in a post-apocalyptic setting where the world as we know it has ended. But how did it all begin? Well for that we need to go back, all the way back to 1984. Meet Brian Fargo, founder of Interplay Productions. He's the guy who's responsible for bringing us Wasteland. This is a time when table-top RPGs
