MOBILE WATCH

Stylish, glamorous and interesting smartphones are always on the horizon. We take a closer look at what's hot in this space...

Nubia Z11 mini S

The ZTE Nubia Z11 mini S is the latest smartphone offering by the Chinese Telecommunications company, in celebration of their fourth anniversary. The Z11 mini S is the fourth model in the Z11 series and will come with a FHD 5.2-inch display. It'll be powered by a 2GHz Octa-core Qualcomm Snapdragon 625 and will have 4GB of RAM. The 64GB variant of the Z11 mini S costs CNY 1,499 (₹14,900/- approx) on the company's official website, and can be expanded to 200GB with a microSD card. The Z11 mini S will also feature a 23MP rear camera with phase-detection autofocus and a 13MP front camera. The 3000mAh battery on the Z11 mini S will be non-removable and comes with NewPower 2.0 power management. For connectivity, we've got Wi-Fi, GPS, Bluetooth 4.1, 3G, and 4G VoLTE. As for the OS, the Z11 mini S will run on Android 6.0 and will also support use of up to two nano-SIMs, if not using a microSD card. The Z11 mini S will also come with a compass / magnetometer, proximity sensor, accelerometer, and ambient light sensor.

BlackBerry DTEK60

BlackBerry's latest smartphone, the BlackBerry DTEK60 Android smartphone is finally making its way to the market through third party retailers. This is of course because BlackBerry announced earlier that they would no longer make smartphones but outsource production and focus on software instead. The DTEK60 will feature a 5.5-inch QHD AMOLED display, a Snapdragon 820 processor, 4GB of RAM, 32GB storage, a 21MP rear camera with dual-LED flash and an 8MP front camera. It will be powered by a 3000mAh battery and will support Qualcomm Quick Charge 3.0 fast charging. In the connectivity department, options include Wi-Fi 802.11ac, Bluetooth 4.2, NFC, GPS, GPRS/ EDGE, 3G, and 4G. The phone is already available for pre-order ahead of official launch on third-party online retailers starting at \$499 (₹33,500/- approx).

Huawei Honor 6X

Huawei's Honor 6X is intended to replace the Honor 5X in the mid-range, highish-end phone segment. The Honor 6X will come with a 5.5-inch FHD display, a choice of 3 or 4GB RAM on the 32GB model and 4GB RAM on the 64GB model, the new Kirin 655 SoC, 32GB of internal storage which is expandable via microSD cards, two cameras on the rear; the main one at 12MP and a second 2MP one, and an 8MP front camera. It'll run on a 3,340mAh battery with fast charging. The Honor 6X will be running the Android 6.0 Marshmallow, not the Nougat and will have dual-SIM configuration, which is all the craze with phone makers right now. It will of course support Wi-Fi, Bluetooth and 4G VoLTE networks. The Honor 6X is available for pre-order in China and starts at \$148 (₹9900/-).
