2017 BMW i8

The new BMW i8 eco sports car will be the newest in BMW's "i" family to be revised. The new i8 will reportedly have a 10% boost in power. The 1.5 litre 3-pot petrol mill will also be seeing a slight update. This will bring the total output to 420 horsepower, which is a good 60 HP more than its current model offers. The new i8 will also have revised automatic transmission; the new six-speed transmission is receiving new software mapping to improve its performance beyond the current i8, allowing it to surpass the current

4.4 seconds it takes to go from 0 - 62 mph. The car is also expected to upgrade its battery so as to extend the car's electric and total range. There's a whole bunch of new upgrades in addition to ones we just mentioned, such as a possibly tweaked chassis, carbon fibre wheels, and even an inductive charging system among other things. BMW's "i" range will go on to eventually have seven models, and the next is a roadster version of the i8. The BMW i8 is expected to come out later next year.

2017 Alfa Romeo Giulia Quadrifoglio

The new Alfa Romeo Giulia Quadrifoglio attempts to balance the power/weight ratio that many struggle with. The Alfa Romeo Giulia Quadrifoglio claims to have a near perfect 50/50 weight distribution for optimal balance. It comes with a front-mounted engine, which is paired with a rear-wheel drive system. In addition to the above, the doors and fenders are aluminum, paired with a carbon fibre hood, driveshaft, and roof. The Alfa Romeo Giulia Quadrifoglio comes with an all-aluminium 90-degree 2.9 litre Bi-Turbo V6 Engine which delivers 505 horsepower and 443 lb-ft of torque. It can go from 0 - 60 in just 3.8 seconds, with a top speed of 191 mph. The Giulia Quadrifoglio isn't

too shabby in the looks department either and features a very Italian aesthetic. For the exteriors you've got 19" aluminium wheels, carbon ceramic brakes, bi-xenon head-

lights, and four-chrome exhaust tailpipes. The interiors are leather wrapped with detailed stitching and a leather bound steering-wheel among other things.
