# Miss a Meme?

Wow, 2016 zoomed by pretty fast eh? Now despite the importance of memes in one's life we understand that it can be hard to keep up. Don't worry we got you covered..

### Exploding kid

Ahh, a meme we're sure would fit most of the world right now.. what with the current state of things and whatnot. If you're wondering whether he was actually going to explode or just constipated, sorry to disappoint, it was neither. Just a guy with a talent for popping his veins out.

### Spongegar

As if the Internet didn't have enough Spongebob memes as it is. Sorry, we apologise, that was uncalled for. There can never be enough Spongebob memes! The meme itself refers to the primitive side in all of us, we all have it, no use hiding it now. You savage.

### Sadflek

Who cares about what Rotten Tomatoes says?! We don't care! We loved your movie anyway! You are the real Batman, better than Christian Bale. Don't be sad Ben. Of course, now that he's a meme, he gets sad about a lotta things. Hello darkness, my old friend.

### Hater's gonna say it fake

Yo yo! Watch us pull off this 360-alley-no-scope-around-the-corner-curve-throw-back-flip and perfectly make the landing. Did you see it? We even have it on video. Hater's gonna say it fake though. You know what, we don't need that kind of negativity over here. Move on boy!

### Damn Daniel

Daaaayumm Daniel! Back at it again with the white Vans! Need we say more? I mean this thing blew up to the point that Ellen Degeneres had them on her show and gave them ... you guessed it – a lifetime's supply of Vans! Daayum Daniel, look at all them Vans.

### Harambe

Oh Harambe, you left us too soon! This is a cruel world and it feels so empty without you. No we mean seriously, who on earth would have thought that some kid falling into a gorilla enclosure would spark one of the biggest internet memes of all time? Meh, whatever. #d\*\*\*\*outforharambe
