

DESIRE

MOBILE WATCH

Stylish, glamorous and interesting smartphones are always on the horizon. We take a closer look at what's hot in this space...

Nokia 6

Nokia has announced that all three of its phones – including the Nokia 6 – will be coming to India later this year. The Nokia 6 smartphone, which is already available in China, shares the same design as the Nokia 3 and 5 smartphones, but offers slightly better specifications than the other two. The variants available for this device are differentiated on the basis of colour. Nokia 6 Arte Black Edition supports 4GB RAM and 64GB Internal memory whereas all the other colours, namely Matte Black, Tempered Blue, Silver and Copper support 3GB RAM and 32GB Internal memory. Arte Black Edition will sell for approx ₹21000 while the other colours will retail for approx ₹16000. The rest of the specifications for both the variants are the same.

SPECIFICATIONS

Display: 5.5-inch, 1080p | **SoC:** Qualcomm Snapdragon 430 | **RAM:** 3/4GB | **Storage:** 32/64GB, microSD supported | **Camera:** 16MP, 8MP | **Battery:** 3000mAh | **OS:** Android 7.1.1
Price: 229 Euros (₹16,200 approximately)

Nokia 3310

The Nokia 3310 was announced in its new avatar. The 3310 is more colourful now and has a colour display, with a new design. It has a 2.4-inch curved display on the front with a polarised layer for better screen legibility. There's an all new UI and support for 2G calling. It's all about going back to the basics. Nokia claims one month stand-by time and up to 22 hours of talktime. The phone will have FM radio and will support microSD cards of upto 32GB. The humble feature phone will feature a 2MP rear camera with a single LED flash. There is no word on the pricing for the device, yet. Oh and "one more thing", Snake is back in a new avatar and will come pre-installed.

Nokia 5

Besides the 3310 and the Nokia 6, the Nokia 5 is the next new Android phone from the company. Like the Nokia 6, it features an all metal build. Priced at 189 Euros (₹13,300 approx), the device is seemingly aimed at the mid-range buyer. All the new Nokia Android phones use an almost stock like UI, which Nokia claims will be updated regularly. All Android based Nokia phones will also support Google Assistant. While the Nokia brand does come with a lot of promises, the specifications do look like they could do better at first glance.

SPECIFICATIONS

Display: 5.2-inch, 720p | **SoC:** Qualcomm Snapdragon 430 | **RAM:** 2GB | **Storage:** 16GB, microSD supported | **Camera:** 13MP, 8MP | **Battery:** 3000mAh | **OS:** Android 7.0
